

PLAGIARISM POLICY

Plagiarism covers everything from copying a friend's work to inappropriate use of information accessed by technology. It is a serious academic offence and will be treated as such. On the first offence, the student will receive a "0" for the assignment (as will the student who lent work to be copied, if applicable) and parents will be contacted. On succeeding offences, consequences will escalate from detentions, to in and out of school suspensions depending on the nature and intention involved in the offence. Serious plagiarism infractions may lead to the student being withdrawn from the course.
